For information: All Sales Manager & GMs

Introduction

Saudi Arabian Airlines has developed a new automatic synchronization feature for electronic tickets in its host system, which is mainly used to match all types of bookings with Coupon Number, for all kinds of passengers.

The automatic synchronization feature works to prevent adding the same coupon to more than one PNR at the same time. This will prevent repeating mistakes of adding same coupon number to more than one PNR.

Advantages:

1- An automatic rejection warning will be displayed whenever trying to add the same coupon number to a different PNR with a message showing the original PNR attached to that coupon.

The following example shows the system’s response in case of coupon rejection:

**COUPON ALREADY MATCHED IN ANOTHER PNR - C2/RLC2P2FKE**

Where:
C2 : Coupon number
RLC : Record locator (PNR)

2- Identifying ticket status (name / Booking class / Coupon status).
3- Revalidating the ticket automatically, in case of schedule changes.

Entry: FHE065-1234567890/Cn/Sn/Pn
FHE : Basic entry to add E-ticket number in PNR
Cn : Coupon number
Sn : Sector number in PNR
Pn : Passenger number in PNR

Examples:

1- Adding matching E-ticket to a PNR

- Display PNR

• Notes:

- To add a conjunction e-ticket, use this entry:

  FHE065-2412345622-23/C1-5/S2-6/P1

- The e-ticket coupons must be used in sequence. This is especially true for SAUDIA international flights.

  Any abuse of this feature will be liable to a penalty according to SAUDIA policies and procedures.
