In reference to the decisions number 8/14 & 10/14 issued from the British passport & Immigration department mainly for travellers holding Argentinian & Uruguay travel documents wishing to visit the UK.

If the nationality in the document differs from the original nationality of the passport, then the holder of the passport should get a visa to enter the UK (as explained in the example below).

Therefore, we urge all travel service providers to confirm & ensure checking the nationality of those citizens to avoid any legal legislations or paying fines.
