To keep up with the company’s strategic transformation program (SV2020), it has been decided to start providing the Prepaid seat selection service on international flights for some seats as follows:

Selection of some seats will not be available through SAUDIA CTOs, Telephone Sales Centers or GDSs. Those seats will be available for the prepaid seat selection service, which will be launched immediately through the official SV website and it will be activated later for other sales channels.

**Definition of Prepaid seat selection service:**

It is a service provided by SAUDIA to its valued guests on guest class only to choose the front-row seats, emergency exits seats, windows seats and aisle seats to reserve them early for an additional fee when they book and issue their tickets through the official website for SAUDIA (www.saudi.com). This service will help organize the seating process for groups and families, whereby it will be gradually applied on all domestic and international flights and later it will also be activated in other sales channels.

**Note:**

All remaining prepaid seats that were not pre-selected will be available for free assignment across all sales channels within 24 hours prior the flight departure.
